LEED Training Rates for Groups 2023

EDUCATION PARTNER

Everblue LEED program covers 100+ topics spanning green design, construction, and operations. LEED is the best introduction to green building concepts that you'll find, and our training is widely acknowledged to be the best in the industry.

We can be a valuable resource for your company: we can strengthen your in-house talent pool, develop your new employees with the necessary skills to succeed in your firm, and provide your seasoned professionals the continuing education to future-proof their resumes and fortify your organization.

The international recognition of LEED naturally amplifies the influence of your bid proposals, empowered by a knowledgeable team of LEED accredited professionals.

LEED Credentials

- **LEED Green Associate** - This course introduces the structure and scope of the LEED Rating System & the practices that make our buildings energy-efficient, safe & healthy.
- **LEED AP BD+C** - This course prepares staff who are already LEED Green Associates to become project managers on LEED new construction & major retrofit projects.
- **LEED AP O+M** - This course prepares staff who are already LEED Green Associates to become project managers on LEED existing building projects.

LEED Exam Prep Training	Length	Price
